EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. James L. Shands on 09/25/2008.

The application has been amended as follows:

Claims 25-27 and 34-63 were canceled.

Non-elected claims 10, 13, 15, 20, 21, 24, 28, 30 and 31-33 depending from generic claim 1 have been rejoined and allowed because claim 1 has been found to be allowable.

EXAMINER'S COMMENT

2. The Notice of Allowance is responsive to *applicant's Pre-Brief Conference* filed 6/12/2008. The arguments, see pages 1-5, filed therein has overcome the rejection of claims 1, 5, 14 and 64, under 35 USC 102 (b) mailed on 3/17/2008. Therefore, the rejections of claims have been withdrawn.

3. The following is a statement of reasons for the indication of allowable subject matter:

The claims in the instant application have not been rejected using prior art because no references, or reasonable combination thereof, could be found which disclose or suggest a device comprises a body including *a plurality of inflatable members defining a channel therebetween*, the plurality of inflatable members disposed about the channel and configured to contain at-

least a portion of an inflatable balloon of a balloon catheter within the channel, each inflatable member has a balloon contacting portion, wherein *each inflatable member extends part of the way about the channel but does not encircle the channel*, and a housing configured to constrain the plurality of inflatable members *as the plurality of inflatable member inflate inwardly into the channel*, in combination with the rest of the claimed limitations as set forth in claims 1 and 5. As to claim 14, the prior art does not teach the invention including the claim limitation of claim 1 in combination with the inflatable members are inflatable from a first size to a second size in which the inflatable members apply an inward force to a balloon of a balloon catheter assembly disposed in the channel, the inflatable members arranged side by side about the channel, where each of the inflatable members extend only part of the way about the channel, where the balloon portion of a balloon catheter assembly is removably disposed in the channel. As to claim 64, the prior art does not teach the invention including the claim limitation of claim 1 in combination with the inflatable members inflate inward so as to reduce in area a cross section of the channel, the cross section extends perpendicular to a longitudinal axis of the channel, and the inflatable members arranged side by side about the channel, where each of the inflatable member extend only part of the way about the channel.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Victor X. Nguyen whose telephone number is (571) 272-4699. The examiner can normally be reached on M-F (8-4.30 P.M).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ho Jackie can be reached on (571) 272-4697. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
